# RUTE & ROLLE

### Print? Online? Social? Mobile? Rute & Rolle!

Fishing is undoubtedly a hobby where talking about success and failure, unforgettable fishing trips and indescribable experiences is crucial. Over 3 million anglers pursue their hobby every year in Germany. They travel, buy online and offline, are mobile and are well-connected. However, typical anglers are not the target group, but rather anglers from many different areas of interest: These include deep sea fishermen, predatory fish anglers, fly fishermen and carp anglers to name just a few. Each of these groups has its own preferences and responds to different messages. And each group finds its information about the best bait, the thickest fish and the next vacation destination in different ways. It's all fine and well if you have all of the necessary marketing channels available to you and can use them.

Even if print media is still very much in use, especially among anglers, the greatest potential for us as a media company and for you as the customer is tapped into through consistently expanding digital media: We have set decisive courses in our publishing house to offer digital platforms through which anglers can find information on the one hand and through which completely new types of marketing concepts can be implemented on the other. Customers become more informed and responsible, or in short: Advertising becomes a dialog. It is about concepts, stories and almost without fail about relevance and high-quality content.

With the publishing website coming in 2018 *www. ruteundrolle.de*, we are also offering you an interesting advertising platform. You will find information, forms of advertising and prices as media data at **www.ruteundrolle.de**. Since we are convinced that print will continue to exist as a strong special interest medium and even has potential for expansion, we have also invested in our magazine: Absolutely contemporary when it comes to the content and look, Rute & Rolle is clearly moving in the direction of an experience magazine with the same high quality of practicality. In addition, we also periodically produce one-off special issues for attractive target groups. Both in print as well as online, we are moving in a very unique direction: Further towards the reader, the user, the angler. **Join us!** 

## **RUTE&ROLLE**

Emotional, adventurous, entertaining, practical - all packaged extremely attractively in a refreshing modern layout: that's how beautiful print can be! The right mix and having the right counterpoint to the often hectic uncontrollable working life matters more than ever for magazines. Rute & Rolle is like fishing itself: A medium full of undivided attention, an adventure already on the next page and always full of surprises. You can tell by the magazine that the editors burn for their hobby, spend every free minute they have on the water and are ideally suited to translate these impressions and messages into print.

Despite all the deceleration and conversation that characterizes print in many ways these days, Rute & Rolle is still living off of the high level of practicality appreciated by many readers and customers and the obligation to not only keep track of the trends, but to set the trends themselves.
